To: Whom it may concern,

Re: Confirmation of witnessing Steven Michael King's skills, desire to test him, his products available via [www.transformationalbreakthroughs.org](http://www.transformationalbreakthroughs.org), and possible collaborations of various types.

This is to confirm we both attended an Energy Medicine/Energy Psychology/Subtle Energy Sciences workshop held Friday through Sunday last July on the campus of California Institute of Human Sciences, with the Lab "Psy-Tek" there on campus.

1) WITNESSING STEVEN'S SKILLS DURING THE LECTURES- this is to confirm that I learned from attendees (I was at my vendor booth during the 3 day event) where many people were mentioning how Steven's abilities became very apparent during the various lectures by the different leaders in the topics due to his high level comments & clairvoyant observations of energy. I heard some of the comments of the Ph.D. or MD, or whomever was giving the lecture/slide show/performance of products and also some of the attendees kept mentioning during the breaks (in front of the vendor booths) how Steven seemed accurate each time, this piquing folk's curiosity very much in his skills & inventions...

2) WITNESSING STEVEN'S SKILLS IN REAL TIME DESCRIBING ACCURATELY WHAT MY EQUIPMENT WAS DOING AS I WAS DOING SESSIONS OR DEMONSTRATIONS & CORRELATING IT TO WHAT WAS HAPPENING IN PEOPLE'S BODIES IN REAL TIME-

A) as I was doing some real time demonstration of the iPad App for real time Quantum Bio-Feedback, Steven began commenting on how energy was flowing in people's bodies including meridians, chakras & other. He was describing this in real time which was consistent with what the equipment was either measuring or balancing. He seemed accurate each time when describing pain or energy flow in a customer

B) Steven was able to perceive & describe the fields movement in real time with an incredible degree of accuracy including what shape of field was intended to be balanced, which directions it would spin, when & how it would pulse, when it would modulate up & down frequencies & even the color ranges of the balancing. He also was able to describe what different components were doing consistent with when I had them

turned on or not, and what they were doing consistent with what they were intended to do.

C) The Research Director,(Dr Gaetan Chevalier) for the accredited research lab (Psy-Tek) linked to the University also witnessed this and in front of my table invited Steven to do testing in the lab under controlled conditions to test materials and or devices designed to help shield folks from cell phone radiation. They both left the area. Many of us were curious how it was going to turn out, as nobody had ever seen a clairvoyant or empath or other, be as accurate with describing energy flow each time on various different situations observed. I too was interested having heard him validating what my equipment was doing & what my customers were experiencing, so we paid attention when they emerged from the lab & walked back towards my table where one of the lab owner, Dr Mary Clark was standing, watching how people were reacting to the iPad App Quantum Bio-Feedback equipment & other things taking place.

D) THE LAB PERFORMANCE WAS MORE SUCCESSFUL THAN EXPECTED-when Dr Chevalier & the other Lab person emerged from the lab, you could tell by their physiology something major had happened. I heard Dr Chevalier describe to Dr Clark how "Steven has saved us well over a dozen hours of lab testing, because of recommendations he made & his very detailed feedback".....he went on to explain that beyond simply being able to describe when the silenced phone was off or on(Steven had eyes closed & phone had ringer turned off while strapped to his head) he could tell when a call came in, if it went to voice mail, if it connected, and when it would disconnect.....and this happened simultaneously with his breathing, heart rate & other bio-feedback measuring equipment registering, at same time each event happened(meaning Steven's body was functioning like an antenna) and what the Dr was especially excited about was how Steven was describing which materials helped, which did not, how the field would change shapes with different things, and most importantly, how to shape devices so the field curved away from a persons head etc!

E)DESIRE TO TEST STEVEN, SOME OF HIS PRODUCTS & POSSIBLE COLLABORATIONS-as a result of what we witnessed that weekend, we're interested in testing Steven before and after certain sessions, as time permits, beginning this Friday. We're happy to test a little at a time (an hour here, a half hour there, in between my previously booked sessions which are booked solid days in advance) as we can create space for and to send back screen shots as applicable.....if things go as expected we hope to talk with Steven about potential collaborations, as timing and schedules of the various parties may allow. We are also open to doing a radio show with Steven, as time and circumstances permit.

Sincerely,

---
