

Doctors Perform Miracles with PRANIC HEALINGsm

DR. ERIC ROBINS, Board Certified Urologist, Los Angeles, CA

"I have been using PRANIC HEALINGsm in a standard medical practice for almost a year. It has been used to effectively treat migraine headaches, labyrinthitis, chronic bladder pain, menstrual cramps, anxiety, insomnia, irritable bowel syndrome, and musculoskeletal problems. It has worked well on postoperative patients to help them get return of bowel function, and a return to feeling "normal again". It has proven to be an excellent complement to my standard practice of allopathic medicine."

"A case involved a family friend who has advanced scleroderma, an autoimmune disease affecting the connective tissues of the body. The skin of the hands gets thick and tight. The esophagus can scar and become blocked, making swallowing difficult. And the lungs can also develop scar tissue, making breathing difficult. When I first started seeing M.G. for Pranic Healingsm, she was experiencing marked shortness of breath with minimal exertion. After walking up the one flight of stairs to her second floor apartment, she would literally collapse on the floor for half an hour to catch her breath. Additionally, she had stiff and painful joints, making extended walking difficult. After on Pranic Healingsm treatment, she experienced dramatic relief in her joint pain and her fatigue. It was easier to breathe, and her energy level exploded. She remarked to me after the first treatment that her life had changed to such an extent that she now runs up the stairs to her second floor apartment and then turns on the music to dance.

Perhaps my most dramatic case was that of J.M. He wasn't my patient, nor was he referred to me, but I had seen his name up on the roster of our surgical ward for so long that I decided to introduce myself. He had had a surgery to remove his gallbladder many months before this, and unfortunately had suffered some significant complications, including an injury to his common bile duct. After this injury, he required several more major surgical explorations. And as frequently happens with complex cases, once things start going really wrong with the body, they seem to escalate. The patient developed multiple enterocutaneous fistulae (this means that intestinal fluid was leaking out through the skin of his abdominal wall); yeast sepsis (a very serious condition, fatal nearly 70% of the time, in which yeast grows in the blood); and a pulmonary embolism (a blood clot in the lungs, fatal nearly 60% of the time). He also had been having daily fever spikes for the past six weeks, and months of constant nausea and vomiting. No one thought that he was going to live past Christmas. It seemed to me in simplistic terms that the patient's energy level was low, his batteries were depleted, and he could no longer heal himself. Most of what was going wrong was a symptom of this. I began to apply Pranic Healingsm daily. Within two days, his fever and nausea disappeared. Within one week his pulse rate decreased from the 150 range to the 120 range. He eventually got strong enough to tolerate a final surgery to repair his fistulae, and went on to make a full recovery."

DR. GEORGES DANGEL, General Practitioner

Blindness, paralysis Mrs. Ave Farauru Age: 56 years: "I am Ave Farauru. I want to thank you about my illness. I am totally incapacitated and completely paralyzed and blind. I went to see Dr. Dangel. He performed a great miracle. Thank you. May God bless you."

Dr. Dangel's note: Mrs. Farauru was totally paralyzed. She could only go to the toilet once a month. Urinate once every four days. Totally blind. After the first session, she became totally animated and recovered her eyesight. Her bowel movement and urine evaluations were all normalized in 24 hours. For the first time in 12 years, she went shopping. She could see 20/20, walk and push around a shopping - smiling and crying at the same time filled with joy.

Paralysis Mr. Sylvere Pifao: Mr. Pifao was completely paralyzed. He had lost his speech for the 5 years. After his first visit with Dr. Dangel, Mr. Pifao can normally walk. Now he can even Sing. His wife, Mrs. Marcelle Pifao, wrote: "A miracle! He had been paralyzed, dumb and bedridden since 1986. He had also suffered from a bad heart ailment. After the fourth session, his heart problem disappeared. Also his diabetes and hypertension were cured."

Systemic Lupus Erythematosus (SLE) Ms. Teihotu Veihere Age: 21 years: In 1995, I became very ill. I could not walk or eat. My weight had gone down to 23 kgs. My doctors tried everything. They had given up hope for my recovery. I was subsequently hospitalized for 4 months. I was suffering and in pain until my father's friend introduced me to Dr. Georges Dangel. After my first session, my pain was gone. Now after several sessions, I am well and putting on 9 kgs in two weeks. I am so happy to live again. I owe my life to Dr. Dangel. May God look after and protect him all his life."

Fractured Ribs Mr. Roi Douglas, 35 years old: "In September 1990, I had a bad car accident. I fractured (totally) 3 ribs. I saw Dr. Dangel. Within several hours, my chest and ribs were totally healed. My X-ray proved it. This was a great experience for me!"

Chronic Diabetes Mrs. Tetuanui Tehi, 50 years old: "For the last 8 years, I had been suffering from chronic diabetes. I had seen numerous doctors to treat my illness and to heal me, but without success. The only advice I got from them was to amputate both my legs due to chronic gangrene. Then, I went to see Dr. Dangel, to help me cure my illness. After 3 sessions, there was a great improvement. When I saw my doctor again two weeks later, he was amazed to find out that my gangrene and diabetes had miraculously disappeared. Grace and thanks to Dr. Dangel. I am completely healed."

DR. PETRUS LUKMANTO

Acute Renal Failure Patient: Haryananto Djojoseputro Age: 55 years Profession: Civil Engineer
I met this patient on May 25, 1994. His chief complaints were physical weakness, severe nausea and vomitus. He has been treated by a general practitioner taking medicine for four days but without effect. Initially I thought that he had a problem in his stomach, because recent laboratory examination in Singapore revealed no evidence of any organ disturbance. I treated his stomach using prana and Dit Da Jow (a kind of topical pain killer). His condition improved but the improvement lasted for several hours only. The laboratory examination which was done two days later revealed that he suffered from severe acute renal failure. Then I gave him Pranic Healingsm three times a day with special emphasis on the kidneys. The other kind of treatment was supportive and symptomatic in nature, such as parenteral nutrition, Amines and antiemetic preparation. His symptoms gradually improved and after five days of Pranic Healingsm he felt quite well, though the laboratory values took seven more days to achieve normal levels. After that episode his condition was entirely normal, and recent laboratory examination (in March 1997) revealed normal kidney function.

DR. BENNY ATNIL

Diabetes Mellitus Patient: Budi S. Age: 31 years: His main complaints were physical fatigue and frequent urination. The doctor's diagnosis indicated that he was suffering from Diabetes Mellitus. The laboratory examinations show his blood glucose was 490 and urine glucose ++++. Apparently, both his parents had the same illness. At the advice of his doctor, he was treated in the hospital with insulin injection for eight days. When he went home, his blood glucose was 224. Still he had to undergo a daily check-up at the doctor's private practice where he was given continuous medical treatment in addition to a strict diet. Later on, feeling distressed with unbearable discomfort, he sought the advice of a friend who suggested him to try Pranic Healingsm. He was referred to me. After the first treatment, his blood glucose was substantially reduced to 175. During subsequent visits, it dropped further down to 138. His medication was gradually reduced until he gave it up completely. After intensive treatment with Pranic Healingsm 3 times a week, his blood glucose is now 108. His physical and health conditions have increasingly improved. He is now free from Diabetes Mellitus which would otherwise tied him to a life-long medication and strict diet. It was indeed a rewarding experience for me as a Pranic Healer to be a channel of God's love."

WHAT PEOPLE ARE SAYING ABOUT PRANIC HEALING

"With elegant simplicity and practical wisdom this book shows you how to harness the healing power that exists in every human being." – DEEPAK CHOPRA, author of *Grow Younger Live Longer*

"I highly recommend PRANIC HEALING to anyone interested in an integrated approach to healthcare. Doctors, nurses, physical therapists, massage therapists, chiropractors, acupuncturists and psychologists would all benefit from a knowledge of this healing art." – DOUGLAS J. Roger, M.D., Board Certified Orthopedic Surgeon

"I find PRANIC HEALING very beneficial and expedient as a tool in my work in the addiction field. On a personal level, my own tobacco addiction of 30 some years was lifted in April of this year. Master Co worked with me in one session and when I left 45 minutes later, I threw cigarettes and lighter away with no regards or fear." – MOSES MCCLUSKY, Professional Drug and Alcohol Counselor

"Four years ago in March of '92 I was diagnosed with a Platelet Disorder, hypercoagulable state, which left me *legally blind* in my left eye from a central retinal vein occlusion. I was placed on many different medications ranging from blood thinners, steroids, blood pressure sedatives and had nine laser and cryonics surgeries on my eye.

After visiting Master Stephen Co and receiving PRANIC HEALING, not only could I *see clearly* out of my left eye, but I also had my blood checked the following Monday at the hematologists' office and there was no indication of a blood clotting disorder and my bleeding was normal. I have been off all medication for almost three months. I am still seeing clearly out of my left eye and I feel normal, for the first time in years." – JILL SCHWARTZ, Film producer

"Our patient had suffered 3 years of chronic pain from a car accident. Various physical therapy techniques had been tried during this time. I then initiated PRANIC HEALING. After only 5 sessions, the patient was feeling well and also quit smoking." – KIMBERLY FANTINI, CMT, LPTA

STRAIGHT TALK on Pranic Healingsm

by Stephen Co, Senior Certified Instructor (U.S.A.)
and Certified MASTER PRANIC HEALERsm

“Everyone has the innate ability to heal and relieve pain. I am not a born clairvoyant nor have I any special inborn healing power. If I could learn how to heal effectively, then you can also! All that is needed

is a certain amount of concentration, determination and most of all the willingness to heal. In fact, it is easier to learn to heal than learning to ride a bicycle or play the piano.”

These are encouraging words from the Oriental Master Healer Choa Kok Sui. He is the originator of the MASTER CHOA KOK SUI PRANIC HEALINGsm & PRANIC PSYCHOTHERAPYsm COURSES, now taught in countries all over the world. He also authored the books “PRANIC HEALING”, “ADVANCED PRANIC HEALING” and “PRANIC PSYCHOTHERAPY” now translated to 16 languages worldwide.

PRANIC HEALINGsm is actually a distillation of essences of the world’s most effective healing modalities - Chinese Chi Kung, Reiki, Christian “laying on of hands”, Tibetan Healing arts and more.

PRANIC HEALINGsm scientifically utilizes the “prana” or life force readily available from the sun, air and ground to heal physical and emotional imbalances. It requires no drugs, gadgets not even physical contact with the subject. No physical contact is required because the practitioner is working on the bioplasmic or energy body and not directly on the physical body. The bioplasmic body, commonly known as the aura, is what clairvoyants perceive as the luminous energy field that interpenetrates the visible physical body. PRANIC HEALINGsm’s effectiveness relies on the fact that there is an

intimate connection between these two bodies. As we heal the bioplasmic body it creates a new and perfect pattern for the physical counterpart to follow, resulting in a healing.

...As we heal the bioplasmic body it creates a new and perfect pattern for the physical counterpart to follow thus causing a healing. PRANIC HEALINGsm acts as a powerful catalyst to spark the body’s inborn ability to heal itself.

PRANIC HEALINGsm acts as a powerful catalyst to spark the body’s inborn ability to heal itself. However, it is not meant to replace orthodox medicine but rather to complement and enhance it.

How could a person learn to heal effectively in a very short time? In PRANIC HEALINGsm this is accomplished by giving the student a step by step cookbook approach to healing. Below are some of the fundamental principles of PRANIC HEALINGsm.

Try this exercise to feel your life force:

1. Connect your tongue to the palate. Breathe deeply for 2 minutes to generate more energy and to relax yourself.
2. Place your hands about 6 inches apart facing each other. Keep your armpits slightly open to facilitate the flow of energy.
3. Concentrate on the center of your palms and continue to breathe deeply.
4. Be aware of any sensations you can feel around your palms and fingers.

Some might feel heat, pressure, tingling even slight electrical charges. This exercise activates the hand chakras located in the palms. It enables you to scan for abnormalities in the auras of other people.

CLEANSING: It is by removing the diseased energies from the affected energy centers/diseased organs and then energizing them with sufficient life force/prana that healing is accomplished. Energizing without first cleansing is like pouring fresh coffee into a cup that is already filled with stale coffee. This approach is slow and quite wasteful. A healing crisis is most likely to occur if the diseased energy is pushed further into the body by a willful healer. A healing crisis is a process whereby the body attempts to expel stale or diseased energies. Some of symptoms are vomiting, fever, diarrhea, fatigue and heavy sweating.

ENERGIZING: Most of us know of some healer or health practitioner who has become drained by performing a healing or counseling session. Most healers make the mistake of using the “battery” approach by transmitting their own life force energy to their subject. When they get drained they have to take a retreat or a recharging time to replenish their energies. In PRANIC HEALINGsm we utilize the “water pump” approach. All of us are swimming in an ocean of energies. By knowing how to properly pump the energies to our bodies and then systematically projecting them to the subject, we are able to sufficiently energize the subject without draining our own supply of life force.

DECONTAMINATION: Most healers get sick either because their life force gets drained or they are contaminated by their subjects’ diseased energies. Absorption of diseased energies occurs not only on
